FRESHER SOFTWARE DEVELOPER

Contact Information

- **Name**: Jack Nguyen
- **Email**: jacknguyen.tech@gmail.com
- **Phone**: (917) 451-7689
- **Location**: San Jose, CA 95112

Profile

A self-motivated and detail-oriented fresher software developer eager to contribute to innovative projects. With a solid academic foundation and a passion for coding, I am committed to learning and applying the latest technologies to deliver effective solutions. I thrive in team-oriented environments where I can grow and tackle technical challenges.

Experiences

Software Development Intern

- **Company**: Bright Solutions Inc.
- **Duration**: May 2024 – August 2024
- **Description**:
    - Assisted in developing and testing core functionalities for a client-facing web application.
    - Worked closely with senior developers to implement RESTful APIs using Python and Flask.
    - Contributed to maintaining application performance by identifying and resolving bottlenecks during debugging sessions.

Technical Support Intern

- **Company**: NextGen Technologies
- **Duration**: September 2023 – December 2023
- **Description**:
    - Provided first-level technical support for web-based enterprise tools.
    - Documented and reported recurring issues to the development team to improve system stability.
    - Gained hands-on experience with tools like Jira, SQL, and cloud-based monitoring platforms.

Education

Master of Software Engineering

- **Institution**: University of Washington, Seattle, WA

- **Duration**: September 2018 – June 2020

Bachelor of Computer Science

- **Institution**: University of California, San Diego, CA
- **Duration**: September 2014 – June 2018

Skills

- Strong foundation in programming with Python, JavaScript, and Java.
- Basic experience with cloud services (AWS, Azure).
- Proficiency in using Git for version control.
- Knowledge of Agile development methodologies.
- Familiarity with database management (SQL, NoSQL).
